

Winterbay Farm Inc

Jeff and Amy Bysterveldt

Introduction

100 cows milked in a modern tie stall facility located 10 min east of Charlottetown in Bedford, PEI. Family run operation that prides itself in making quality milk from a top producing herd with strong genetics.

Position: Dairy Herdsperson

Reporting to: Jeff Bysterveldt

Main purpose of the Job: to apply skills and knowledge to the procedure of milking cows and rearing heifers and calves.

The Main tasks involved:

- set up, operate and maintain the milking equipment
- milk cows and clean up equipment afterwards
- rear heifers and calves, ensuring optimum health and growth rate.
- assist in diagnosing sick animals and treat with medication when required and record all treatments.
- assist with heat detection and calving
- feeding and bedding animals with tractor
- driving tractors to assist with planting and harvesting when needed
- day to day chores as required

Conditions of the job:

Wages: will vary based on experience with the option of pay hourly or salary

Hours: 40-50 hrs /week

Pay period: every two weeks

Vacation: 2 weeks

Other benefits:

- highly qualified workers have the option of health/dental insurance
- a typical week consists of one morning and one evening milking off during the week.
- schedule includes milking every second weekend, with weekends off typically beginning at noon every second Friday.
- opportunity for annual bonus based on performance.

Qualifications:

For the herdsman job described above, the applicant should have:

- Valid drivers licence
- reliability and punctuality
- good work ethic and motivated to work in a team setting
- experience working with animals
- strong references (minimum of three)
- Milking and tractor experience are a benefit
